Note: The Program is currently processing offers for locations in italics.

*The Program is updating and refining the fields in this table. The figures are subject to change.

†This figure is calculated by dividing the number of accepted offers by the number of individuals.

‡This figure is calculated based on the dollar value of offers. If an individual receives two offers (e.g., one for $200 and another for $100) and decides to sell the fractional interests in the $100 offer, the Program tracks $300 in offers made and $100 in amount accepted.
